

# THE HICKMAN COURIER

"THE ONE PAPER IN MOST HOMES--THE ONLY PAPER IN MANY HOMES"

VOL. LXII.

HICKMAN, KENTUCKY, THURSDAY, FEBRUARY 16, 1922.

NO. 36.

## SOUGHT LIVES OF CHILDREN, CHARGE

G. L. Darnell Pleads Under \$1500 Peace Bond.

On Thursday of last week there was an unusual case in the Hickman court. A father was charged with attempting to have the lives of his two sons and daughter killed. The charge was made by J. D. Darnell, a resident of Hickman. The father, G. L. Darnell, 38 years old, is a native of Hickman and has been in the city for many years. He is a well-to-do man and has a good reputation in the community. He is charged with attempting to have the lives of his two sons and daughter killed. The charge was made by J. D. Darnell, a resident of Hickman. The father, G. L. Darnell, 38 years old, is a native of Hickman and has been in the city for many years. He is a well-to-do man and has a good reputation in the community. He is charged with attempting to have the lives of his two sons and daughter killed. The charge was made by J. D. Darnell, a resident of Hickman.

### ROSEY CHASTE

A wedding which came as a surprise and which is of interest to the many friends of both young people was that of Miss Rosey Chaste to John Chaste last Thursday afternoon. The ceremony was performed by the Rev. C. H. Warren, pastor of the First Baptist Church of Hickman at the home in that city. The couple were accompanied by Mr. and Mrs. C. H. Warren and Miss Chaste, sister of the bride, those being the only ones present at the wedding. Immediately after the ceremony the newlyweds left for a few days' wedding trip to Memphis, returning Sunday afternoon.

The bride is one of the finest young ladies we have ever had the pleasure of being associated with. She is endowed with an attractive and winsome nature which has won for her a host of friends. She is the oldest daughter of John Chaste and wife.

The groom, we think, is one of Hickman's most excellent young men. He is well known to most of the readers of The Courier, being one of the publishers of this paper and this fact, through modesty, makes us feel a delicacy in announcing the fineness of his parts and possibilities through these columns, as we do in most instances, and hence the absence of the soft pedal in delineating the category of his virtues. At any rate, at least by virtue of the bride, we feel safe in stating that the excellent qualities of both young people augur a delicious marriage life for the young couple.

### WOODROW WILSON FUND.

Following is a list of persons who have contributed to the Woodrow Wilson Foundation since last week:

Gould Johnson	\$2.50
Mrs. Ida Bell	2.00
Ray Clark	1.00
O. C. Bell	1.00
J. M. Calvin	.50
C. G. McMurry	.50
Previously acknowledged	102.50
Total received to date	110.00

This still leaves \$10 to be contributed in order to make Fulton County's quota. Surely enough persons are interested to make up that amount.

E. J. Stahl, Chairman.  
Miss Inez Luten, V. Chairman.

On Monday afternoon, from 2:30 to 4:30, Mrs. Joe Engle was the hostess of an enjoyable bridge party, at which there were four tables. A salad course and coffee were served. Her guests were Mesdames Edward Peatzer, Gus Alexander, Karl Talley, C. T. Bondurant, Bolla Roney, F. T. Roney, Cecil Roper, Amos Hendrick, Henry Sanger, R. B. Coffey, W. B. Amberg, E. L. Bradley, Guy Hale, and Misses Jane Blinford, Ailie Dodds, Pauline Shaw, Nell Bondurant, Thelma Barnes and Ruth Barrett.

N. R. Holcombe leaves next week for Greenville, Miss., after spending the winter with his mother, Mrs. C. A. Holcombe.

H. L. Anderson, accompanied by Mrs. Amberg, left Sunday morning for the St. Louis market to buy new spring goods.

Paulina Hen Chow and Paulina Chowder will make the old hen produce, —Red Bros.

W. B. Amberg and C. B. Travis went to Louisville this week on a business trip, returning Monday.

Mr. and Mrs. W. C. Reed, of Paducah, spent Sunday here guests of Dr. C. W. Curdin and family.

Jim Townsend has the flu.

### BAZAAR AND CANDY SALE.

The Ladies' Aid Society of the Baptist Church will give a Bazaar, Candy Sale and Candy Sale on Feb. 27th, at 2 o'clock in the Clark store building on Clinton St.

Our good friend E. R. Ellison is having a new back wall put on his store building this week. Last week, and the week before he advertised his sale in The Courier and he states that some crowds attended that the wall was pushed out. He will, no doubt, have the wall repaired and other bargains to tell you about next week.

After a career of 26 years as a teacher in the Omaha schools, Miss Clara E. Cooper has asked to be retired on a pension.

Mrs. Sam B. Parker left Tuesday on a visit to her sister, Mrs. Paris, and other relatives, in Caruthersville, Mo.

### ST. PAUL'S CHURCH.

Rev. W. L. Bondurant, Pastor.  
Sundays, 10 a. m. and 8 p. m.  
Holy Communion 8 a. m.  
Church School 9 a. m.  
Holy Eucharist and Sermon 11 a. m.  
Evening and Sermon 7 p. m.

C. H. Smith of Bondurant, better known as "Strangle" Smith, was in Hickman Wednesday returning home from a visit with his sister at Rockhaven. He was accompanied on his return by his mother, little Miss Emma Smith, who will visit him at Bondurant for several days.

W. H. Palmer leaves Sunday for St. Louis to buy spring goods. He will be accompanied by his daughter, Mrs. K. A. Talley.

Dressmaking and Hemstitching by Miss Zora Evans, Franklin's Store, Fulton, Ky.

### CHRISTIAN CHURCH.

Bible School 9 a. m.  
Communion and Preaching at 10 a. m.  
Subject: "Friendship and Fellowship."  
Night Worship 7 o'clock.  
E. L. Milley, Pastor.

A. A. Surgeon, C. P. Google, of the U. S. Public Health Service, will spend the week in Fulton County making a medical survey in the public schools of the town and county. Dr. Google will be assisted in his work by Dr. J. M. Hubbard and Mrs. A. E. Sims.

Mrs. Howard Thomas and two children, of Martins, Ill., has returned home after a visit with J. A. Thomas and wife and Mrs. A. J. Walker and family.

Chester Barnes returned last week from Lexington where he has been attending the State University.

### STATE COAL LAND TAX BOOST IS SET

State Tax Commission Will Commence Hearing on Assessments Today.

Assessment of real and personal property in Kentucky will be little changed from that of 1921 by the process of equalizing the 1921 valuation, on which the State Tax Commission will commence hearings today. Tentative raises have been made on 105 of the 120 counties, but even with their raises, seventy-seven of them are below 1920 figures, and a total of \$31,492,312, while twenty-eight, including most of the coal counties, were raised a total of \$37,340,000, putting the tentative assessments of the 105 counties \$5,847,688 above that of 1920. In these raises, outside the coal counties, Bailey T. Wells, chairman, said the only aim was to keep land up to what it was last year. A big loss in livestock and personal property forced down the assessment in all the counties.

Mr. Wells also said the assessments this year come nearer conforming to sale prices on the transfer sheets sent in by the County Clerk than they ever did before.

The biggest net raise on any county was Harlan \$7,533,556; the next Perry, \$6,688,766, and Letcher, \$4,142,523.

The counties of this district showing a decrease over the last previous assessment are Fulton, Hickman, Ballard, McCreckin, Marshall and Callaway, while the only county in the district to show an increase in the tentative assessment over last year year is Carlisle.

Following is a list of these eight counties giving the dates on which their representatives are to appear before the commission, giving the raises and the increase or decrease from the last previous assessment:

Fulton—Raised \$450,000; land \$400,000, lots \$50,000, decrease of \$240,823 from last year. Hearing set for Tuesday, Feb. 28.

Hickman—Raised \$1,400,000; land \$1,200,000, lots \$200,000, personally \$100,000. Decrease of \$216,478 from last year. Hearing set for Wednesday, March 1.

Ballard—Raised \$900,000; land \$750,000, lots \$150,000, personally \$100,000. Decrease of \$736,608 from last year. Hearing set for Saturday, February 25.

McCreckin—Raised \$3,150,000; land \$2,500,000, lots \$150,000, personally \$500,000. Increase of \$1,062,480 from last year. Hearing set for Tuesday, February 28.

Marshall—Raised \$1,450,000; land \$400,000, lots \$50,000, personally \$1,000,000. Decrease of \$851,537 from last year. Hearing set for Friday, March 3.

Callaway—Raised \$2,125,000; land \$1,800,000, lots \$125,000, personally \$200,000. Decrease of \$574,500 from last year. Hearing Monday, Feb. 27.

Carlisle—Raised \$1,100,000; land \$900,000, lots \$50,000, personally \$150,000. Increase of \$274,601 from last year. Hearing Monday, February 27.

Fulton's RAISE \$450,000.

It is not surprising to receive the news from Frankfort that the State Tax Commission is at its old tricks of tax raising. Fulton, whose taxburdened shoulders have ever seemed to the commission ready to receive an additional increase, has advanced another \$450,000 in the tentative assessment plans of the commission. But we must pay the expenses. The state and national governments, in spite of the fact that the people who pay the taxes are crying for economy, are increasing old expenses and adding new ones with every turn of the legislative wheel. Every new bill introduced provides for new offices, to be filled of course by friends of the sponsor of the bill.

But we still must object. We will continue to have tax increases made, while our legislators debate the question of having whistles put on moonshine stills, or our solemn senate surveys the proposition of dividing the year into thirteen months.

In justice to the tax commission we may say that they have in a measure evened things up by putting an additional assessment on the coal counties of the state which will make them more nearly pay their share of the state's taxes.

Capt. C. P. Google, of the U. S. Public Health Service, and who is here making a malaria survey of the county, delivered an interesting address to the children of the Hickman schools Wednesday morning on the subject of malaria and its causes.

Will Huff left Sunday for Colorado Springs, Colo., where he will enter the Woodmen Sanitarium for his health. He expects to spend six months in the sanitarium, building up and regaining his health.

J. A. Thomas, who has been sick for some time, will be taken to the Baptist Memorial Hospital at Memphis today, where he will undergo an operation for gall stones by Dr. Christler.

Mr. and Mrs. Bascombe Lunsford of Bloomfield, N. J., are here visiting the former's father, L. C. Lunsford, and family. Bascombe holds a splendid position in that city.

Mr. and Mrs. Bascombe Lunsford of Bloomfield, N. J., are here visiting the former's father, L. C. Lunsford, and family. Bascombe holds a splendid position in that city.

## PRE-WAR PRICES

We have decided to clean up our implement stock, and in the run of several years we have accumulated too-heavy stocks on certain sizes of implements. In order to move out a lot of surplus implements we are making the following prices:

Nos. 20 and 40 Oliver Plows, at—  
**\$12.50 and \$13.50**

Oliver Stalk Cutter  
at **\$37.50**

Lone Jack Cultivators  
at **\$25.00**

No. 3 True Blue Plows  
with cutter points at **\$17.00**

We are offering some off  
brand Plows that are good at **\$10.00**

## Hickman Hdw. Co.

INCORPORATED

### CUTCHEONS-EVANS.

Miss Maxie Evans, of near State Line, and J. R. Cutcheons, of St. Louis, were quietly married Saturday. The bride is a daughter of George Evans, was born and reared near this city and is well known. The groom is a resident of St. Louis and is a traveling salesman for Swift Packing Co., with headquarters in Union City. He makes this city weekly and is well known to the business people of this section.

### MISSIONARY SOCIETY.

There was a large and appreciative attendance at the Woman's Missionary Society of the First Methodist Church last Monday. The lesson was on Cuba and was made especially interesting by Mrs. Maxie Randle, who gave us an interesting and instructive talk on her trip to Cuba. Our lesson next Monday is the regular monthly mission study, "Money The Acid Test." We cordially invite the ladies of other churches to join this study.

The city is this week having the holes in the street in front of the Curdin block filled with rock, smoothing the street off along there. This was badly needed, as it was one of the worst sections of street in the city, having one hole and undulation after another.

Gid Willingham, of Fulton, was in the city on business Monday.

## SUBSCRIPTION RATES

One year \$1.00  
Six Months .60  
Three Months .30

## INCOME TAX FACTS

Changes in the revenue law are of material benefit to the average family man. Under the revenue act of 1921 a married person, living with wife or husband, whose net income for 1921 was \$5,000 or less, is allowed a personal exemption of \$2,500. Under the revenue act of 1918 the exemption allowed a married person was \$2,000, regardless of the amount of his net income.

The normal tax rate is the same, 4 per cent on the first \$4,000 of net income above the exemptions, and 5 per

cent on the remaining net income. Given his personal exemption of \$2,500 plus \$400 for each dependent, a married man with three children—the average American family—with pay this year on a net income of \$4,000 a tax of \$12. On the same income for 1921 he would have paid a tax of \$36.

Every citizen and resident of the United States must determine for himself whether his income for 1921 was sufficient to require that a return be filed. Full instructions for making out a return are contained on the forms, a copy of which will be sent to taxpayers who filed a return last year. Failure to receive a return, however, does not relieve a taxpayer of his obligation to file a return on time, on or before March 15, 1922. Forms may be obtained from collectors of internal revenue and branch offices.

## No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strengthening tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

## WARRING ON THEATER COUGH

Here Are Some Suggestions That May Aid in Doing Away With Annoying Disturbance

Cough and the hoarse cough with you, has long been a malady of the theater. It is contagious in its quickest form. Actors are now in arms against it, claiming that most theater-coughing is mere habit and could be controlled. What good the actors' protest will do remains to be seen, but the outlook for a coughless theater is not wholly hopeless. People no longer sneeze like a set piece of Paines drawings, and they may in time learn to refuse the cough.

Of course, coughing has its uses. Discreet employment of it by an adult may keep a child companion from hearing an improper line in a farce, but this process is wearing. It necessitates advance knowledge of the dialogue, and a larynx of iron. Best of all methods of regulating the theater cough would be by means of a cough indicator, one attached to each chair. By a delicate mechanism on the set-micrograph principle—the principle by which earthquakes are recorded—each cough of any magnitude would be rung up like car fare. Each patron would be entitled during an evening to so many—say, ten. At the eleventh, patron would vanish through a trap-door in the floor to a first-aid station in the basement, where throat specialists with sprays would be in constant attendance.

"It's sweet to hear the watchdog's honest bark," wrote Byron. The watchdog's, yes—Arthur H. Foxwell in Leslie's Weekly.

## SAFETY IN FINGER PRINTS

Chicago Post Office Authorities Are to Use Them When Savings Accounts Are Opened.

Finger-print impressions must now be taken of every person desiring to open a postal savings account, at both the main post office and the stations. The print of the first or index finger on each hand must be taken. This is done so that in the event of injury to the right hand, making it impossible to take the finger print in making a withdrawal, the identification may be established by the first finger of the left hand.

"The purpose of the finger-print impression is for the protection of the depositor and the post office," said Postmaster Arthur C. Leuder of Chicago. "We are particularly anxious that it shall not be associated with finger printing by the police department. While test questions ordinarily are sufficient to identify the depositor, cases have arisen in which near relatives or acquaintances have answered the test questions to the satisfaction of the paying postmaster or clerk, and thereby secured deposits illegally. Then, too, many of our foreign-born depositors in the progress of their Americanization attend the schools and show such improvement in their writing that their signatures materially change. Finger prints in such cases save the depositor the possibility of delay in withdrawing his funds."

## Modernizing Jerusalem.

To the stranger the majority of the natives in and around Jerusalem appear to spend their time carving all kinds of queer things out of olive wood and stringing beads cut from the big mother of pearl shells which are brought across the desert by caravan from the shores of the Red sea. The ancient city, where more than half of the population live in stone houses like caves underground, has been cleaned up by the efforts of the new civil administration. The people have been taught to collect their garbage and cover it over until called for and to sprinkle the surface of the water in their quaint old cisterns with crude petroleum to keep the mosquitoes from breeding there in the summer during the malarial season.

## SILLYADS

(Copyright 1920, R. V. C. Smith)

When your family sorrowfully sees the last of you, you can see your family happily last, if you were insured with Henry & Talley.

Some barbers now shave the insides of throats for 50 cents. Don't drink hair tonic. For just the proper throat tickle try Cherry Blossoms.

When figuring on a railroad trip, many people believe that less fare would be more fair. In this journey to success this bank guards your money more fair without any fare.—Hickman Bank & Trust Co.

Hosiery covereth a multitude of sins—that's why we sell so much of it.—Smith & Amberg.

When you go to Kentucky you tip the bell boy, the porter and the waiter. When you leave you tip the scales over one hundred. To gain weight eat at the Busy Bee Cafe.

A memorial tablet has been placed on the house in Norwich where Harriet Martineau, the famous author, lived for many years.

Colds Cause Grip and Influenza  
LAXATIVE BROMO QUININE tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

## LIVE STOCK FACTS

## COMMON AILMENTS OF SHEEP

Information Given in Farmer's Bulletin to Enable Owners to Recognize Symptoms

(Prepared by the United States Department of Agriculture)

How to recognize and treat the more important diseases and common ailments of sheep is told in Farmer's Bulletin 1159, just issued by the United States Department of Agriculture.

A Sheep Parasite—Back View of Female Sucking Body Louse (Highly Enlarged)

While the actual treatment of disease is primarily a matter for veterinarians, the information given in the new bulletin will enable sheep owners to recognize symptoms early in their development and thus avoid losses to their flocks. Altogether 57 kinds of diseases and ailments are discussed.

The sheep industry of the country has suffered severely from the ravages of infectious and noninfectious diseases. In addition to the scientific names, the bulletin gives the common names by which the various diseases are known. A convenient arrangement of cause, symptoms, post-mortem appearance, diagnosis, treatment, and prevention makes it possible for sheep owners to obtain a practical knowledge of the best means for preventing and controlling sickness in the flocks. Numerous illustrations add to the clearness of the discussion.

As a companion bulletin to "Diseases of Sheep," the department is distributing also Farmer's Bulletin 1159, en-

Adult Sheep Foot Louse and Egg (Enlarged.)

itled "Parasites and Parasitic Diseases of Sheep." This bulletin explains methods for controlling various pests and parasites that attack sheep and points out the advantages of pasture rotation, feeding from racks, and other measures of value in parasite control.

## SAYS CALOMEL SALIVATES AND LOOSENS TEETH

The Very Next Dose of This Treacherous Drug May Start Trouble.

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

## FISHERMAN PIERSON SICK

W. Fred Pierson of Bayou de Chien, who has been quite ill with smallpox, is reported as being better. It is reported that he will not be "at home" to friends for some time yet. His family is also reported as doing all right.

"Tanlac made me feel younger." "It put me back on the payroll." "I can eat whatever I want now." "I no longer suffer from indigestion." "I gained weight rapidly." These and many more expressions are now heard daily as people tell of their experience with Tanlac.—J. C. Ellison Drug Co.

## Worthiness.

A man can bear a world's contempt when he has that within him which says he's worthy.—Alexander Smith.

Liquid Borzone is an efficient healing remedy for human and animal flesh. It mends a severe wound, sore, cut or scorch in the shortest possible time. Sold by all druggists.

## IDLE MONEY IS A WASTE THAT IS INEXCUSABLE

If you have only a few dollars to invest, if you are saving for a larger investment, a safe and profitable temporary employment of your funds is a Bank Account.

It is the public spirited, the proper, the profitable thing to do to keep all of your funds actively employed.

## SPECIAL

Our good friends and customers will be afforded an unusual opportunity on

**FEBRUARY 22 and 23**

as on those days we shall have with us Mr. Schneider, a representative of our well known tailoring firm—

**Ed V. Price & Co.**

with a whole trunkful of the new spring and summer woollens in the piece.

This will be the greatest display of imported and domestic woollens shown in this section this season, and we are very anxious to have you look them over. The quality is, as always, super-excellent, and the prices are very reasonable. A look will convince you that it was well worth your while to defer placing your order until afforded this opportunity.

You can place your order now for your new spring and summer suit and overcoat for whenever you say.

We invite you to call and look the line over. Remember the date and pass the good word along to any of your friends, many of whom will be glad to take advantage of the opportunity.

Cordially yours

### CITES FIGURES IN SOLDIER BONUS ACT

Here are the figures showing at a glance what the former service men will get for varying periods under the proposed soldier bonus act. The figures show what he would get on a cash basis or under the four options, which include insurance, vocational training, farm or home aid and land settlement. The periods are calculated on the maximum period of service and also on the basis of one year and of six months and will serve to give the soldier an approximate idea of what is "coming to him" according to his length of service.

Most an overseas soldier could get: Cash, \$958.25; other options, \$1,342.25.  
Most a home service soldier could get: Cash, \$755; other options, \$1,057.  
A soldier who served one full year overseas would get: Cash, \$836.25; other options, \$554.74.  
A soldier who served one full year at home would get: Cash, \$505; other options, \$472.  
A soldier who served six months overseas would get: Cash, \$175; other options, \$245.  
A soldier who served six months at home would get: Cash, \$128; other options, \$178.20.

### NOTICE

to land owners of Bayou de Chien Drainage District:

Take notice that the Board of Drainage Commissioners has passed the following resolutions, and ordered publication of same:

Whereas, The Drainage Assessment Record of the Bayou de Chien Drainage District is now in the hands of the secretary of this board, the same having been duly approved by the Judge, and duly certified by the Clerk of the Hickman Circuit Court; therefore be it Resolved, That the Secretary of this Board be, and the same is, hereby directed to give notice, by publication of this notice two times in one newspaper in each of the three counties in which the district is located, that all persons owning land in the said Bayou de Chien Drainage District that the said Drainage Assessment Record is now in the hands of J. A. Porter, Treasurer of the Board of Drainage Commissioners of Hickman county, Ky., and that any person owning land in the said district may or may not, on or before Monday, March 27, 1934, pay to the said Treasurer his or her minimum district assessment against any separate and distinct tract or parcel of land within the said district.

Given under my hand this, the 11th day of February, 1934.  
J. A. PORTER, Secretary.

Habitual Constipation Cured in 14 to 21 Days  
"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60¢ per bottle.

### SYLVAN SHADE COMMUNITY CLUB

The program rendered at the last meeting of the community club was by far the most successful number given this year. Notwithstanding the fact that one of the main speakers of the evening, Mrs. Sims, could not be present, since she was called to Louisville on business, the large crowd of patrons and children went home declaring that they were highly entertained.

Each number of the evening showed a thorough preparation. Mrs. Cecil Shaw's room consisting of several children each, and most especially their efficient leader, deserves much merit for the splendid entertaining part of the program, which consisted of a short play, songs and readings, all in season for February. The discussion of the subject of poultry, consisting of natural and artificial incubation, and selection of eggs was interesting and some very instructive papers were prepared and read by Mesdames Richard Prather, A. M. Shaw and Louise McDowell. The standard set by all who participated in the program will be difficult to surpass, but if we can only hold it there will be no room for just criticism.

You that have not attended one of these community meetings do not have any idea of the source of information and entertainment that you are missing. Favor us with your presence and you will not have to be reminded again of the value of such meetings to your community.

The program committee, knowing the county nurses' willingness and desire to serve the people, placed her on the program again for the next meeting.

Our next meeting will be on March 3. If you should forget the date, ask your neighbors; they know, but only remember that they are on the first Friday evening of each month. Following is the program that will be given then:

I. Entertainment by Miss Lulu Shuff's room.  
II. Lecture on Health, by Mrs. Sims.  
III. Discussion: Orchardling, (a), Grafting, by Mr. Shuff; (b), Pruning, by Jim McDowell; (c), Spraying, by Jesse McNeill; (d), Discussion of Orchardling in General, by County Agent Cunningham.  
IV. Reading of program for April.  
V. Song, "My Old Kentucky Home."

The members of the program committee wish to express their sincere desire that each member on the program, from time to time, be present with well constructed papers or well thought out speeches. The welfare and success of the meeting depends upon your earnest support.

Lastly, but not least, we can boast of the splendid order that we had last meeting. This shows 100 per cent support. It shows, too, the deep respect that you have for yourself, your community and for those participating in the program.

### School Notes

The progress in country life demands that the doors of the school swing open freely, inviting hearty co-operation in the common cause of a better life for all. The educators, both great and small, rightly say that this kind of an institution must become a center of interest—a point for promoting neighborliness and common brotherhood, and a focus of ideas on all civic questions and problems of common interest.

The teaching force at Sylvan Shade stands first and last in supporting any movement for progress in any civic development and for a better school. So our latest hands on the outside to patrons and visitors who are interested in our work. Do not wait for a special invitation to visit and observe our work. Your presence will be encouraging and stimulating to us in our efforts.

We were glad to welcome some of our school supporters and boosters to our High School Literary Club last week. Visit our club again next Friday afternoon. We hope to have an interesting "Mute Court" program. Come and see Judge McMurry preside. We also hope that the "attorney at law" of Mrs. Katherine F. Roper vs. Melvin Roper will be properly settled by the new officers of the mute court. The grand jury will also be selected for our next court. Our mute court programs will be the nature of the programs for three or four meetings.

Basket ball has been somewhat affected by the low temperature for the last few weeks, since our court is an outdoor one, but we hope to be able to see a real score of the "reds" and the "blacks" of the girl teams, and the "handkerchiefs" and the "mons" of the boys tossing at the goal.

Why was the principal smiling last Monday morning when the sophomore class in algebra filed into his room? "New blackboard," whispered one of the sophs, was sufficient explanation. A short visit was made by the county school superintendent, Miss Lutten, last Friday afternoon. Come again, come sooner and stay longer, was the extended invitation given her.

**To Stop a Cough Quick**  
take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough. Both remedies are packed in one carton and the cost of the combined treatment is 35¢. Just ask your druggist for HAYES' HEALING HONEY.

**INCOME TAX MAN COMING**  
A deputy collector from the office of the collector of internal revenue, Robert H. Lucas, will be in Hickman, Ky., on February 17 to 20, and Clinton on February 21 and 22, 1934, for the purpose of assisting taxpayers in preparing their returns. Take your income tax troubles to him. He will be glad to help you.

Victoria Alexandra Alice Mary is the full name of England's princess who is soon to become a bride.

### STILL A HERO

Charles Brickley, Harvard graduate and great hero of the football gridiron, is still a hero. He has donned overalls and gone to work as a common laborer in a Connecticut carpet factory to earn a living for his wife and two children. He tried New York—but a college education without funds," he says, "don't mean anything." So now he is going to learn the carpet business from the bottom up.

### UNSHAKEN TESTIMONY

Time is the test of truth. And Doan's Kidney Pills have stood the test in Hickman. No Hickman resident who suffers backache or annoying urinary ills can remain unconvinced by this twelve fold testimony.

John H. Nelson, painter and farmer, E. State St., Hickman, says: "I used one box of Doan's Kidney Pills and they did me a great deal of good. I had severe kidney trouble and my bladder was weak. I also had constant pains. Seeing Doan's Kidney Pills highly recommended I got a box and used them as directed. In a short time I was cured. I have had no occasion to use Doan's since then. I can highly recommend them to any one suffering from kidney trouble." (Statement given January 26, 1932.)

On December 3, 1930 Mr. Nelson said: "I have the same good opinion of Doan's Kidney Pills as when I endorsed them several years ago. I take a few Doan's whenever my kidneys are out of order and they never fail to promptly strengthen my kidneys and leave me in good condition."

Price 60¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Nelson had. Foster-McMillan Co., Mrs., Buffalo, N. Y.

## THE COUNTY AGENT'S COLUMN

## Pasturing.

It is now seedling time and every farmer should be thinking about pastures for the spring and summer.

Oats and rape make one of the best early spring pastures for hogs and sheep. Rape is one of the best pasture plants for hogs. It has lots of protein and mineral matter in it which is needed for building bone and muscle. A pig's first job is to grow bone and muscle and when he is grown he can be fattened. Corn is a fattening material and the man who feeds corn alone to growing hogs gets the cart before the horse and which results in getting the balance on the wrong side of the sheet. Sow 6 pounds of rape and one and one-half bushels of oats per acre. For a permanent pasture the following is one of the best mixtures: 8 lbs. orchard grass, 2 lbs. red top, 2 lbs. alsike clover and 4 lbs. Japan clover per acre. This mixture gives variety, feeds on depths of soil and comes on at different seasons of the year.

## Orchards.

It is now time to spray and prune that orchard. Apple trees require very little pruning. Only the limbs that interfere or water sprout growth should be cut out. Peach trees should be heavily pruned. Pouches are always produced on new wood and heavy prun-

## SCHOOLBOY CHESS MASTER STILL WINS

AUTOCASTER.

William Winsatt, 14-year-old Washington schoolboy, is the new chess champion. He never evades a challenge for match play and is shown here defeating Col. M. F. Tibe, who holds many chess club championships. Col. Tibe is a newspaper correspondent who for thirty years has reported affairs at the White House.

ing is necessary to produce new growth. It is now time to put on the dormant spray to control San Jose scale and other insects that destroy the tree. It

is necessary to keep the tree in healthy condition in order to get fruit and it can be done by the use of lime sulphur applied during the dormant season.

Further information can be obtained from the County Agent as he will be glad to assist any farmer who wishes it with his orchard.

## Set Them Early.

Early pullets are the chickens that lay winter eggs. Winter eggs are the eggs that bring the big price. It is highly profitable to raise early chicks.

Dust the old hen with kerosene before putting her to setting. Put a piece of moist sod in the bottom of the nest and make a new nest out of some clean straw before putting the hen to set. Eggs need a certain amount of moisture during incubation.

Thirty settings of purebred eggs were shipped to Jackson, Tenn., last week by the Fulton County Poultry Association. The Association has calls for White Rocks, Barred Rocks, Rhode Island Reds, White Leghorns, etc. If you have a purebred flock why not line up with the Association and supply these eggs. Why sell eggs at two bits when you can sell them at six bits per dozen?

O. L. Cunningham, Co. Agent.

The law on shooting and trapping of furred animals expired Wednesday, the 15th, after an extra good season, both for the hunter and the trapper. There is much trapping done around Itasca Lake and during the season, which lasts throughout most of the winter months, this proves a remunerative business for many. Throughout this section they trap for the coon, possum, mink, muskrat and get a very few otters and beavers. The otter, however, is quite rare. For this winter has also brought a good price, and the fur trade in this city or section amounts to an average of about \$3000 weekly. Very little thought is given this business, it seems, and few realize that the trapping and fur business would amount to anything like this figure weekly.

John Ledbetter, who is in the government hospital at Johnson City, Tenn., undergoing treatment in the hope of alleviating the condition which resulted from being gassed in a test conducted by the government, writes that his condition has been improving since he has been in the sanatorium.

A bill to prohibit women from smoking in hotels and restaurants has been introduced in the Massachusetts Legislature.

## The Scrap Book

## DIDN'T FEEL THE HANDICAP

Simple Precaution That Enabled Shrewd Individual to Emerge Victor in "Pea Race."

It was galatday at Worcester, and among the many events was a "pea race." Each competitor had to produce two dozen peas and place them in his boat before a committee of umpires.

At the appointed time the race began, and away hobbled the men.

One old fellow, however, did not seem to be affected by the tortures which the peas inflicted on the others, and he walked past the winning post far ahead of the rest.

On being complimented by a friend and asked how he managed to beat so many younger men, he replied: "Well, you see, I took the precaution to tell them 'peas'!"

SEEMS SO.

PLAYED PART IN REVOLUTION

Last of "Signal Trees" Near the Valley Forge Camp of Washington Recently Removed.

With the removal recently of an ancient chestnut at Stratford, Pa., there disappeared one of Chester county's notable landmarks. It was the last of a score or more "signal trees" used during the Revolution as observation posts by soldiers guarding the approaches to the camp of the "ragged Continentals" at Valley Forge.

These trees, the tallest in the forests, were scattered over what is now the upper end of the fashionable main line.

Platforms were built in their tops and there, day after day, lookouts watched the roads and the activities of marauding bands of Redcoats and Tories over the countryside. Warning of the approach of an enemy force was given by the observer firing his musket. The man in the next signal tree, a mile or more away, would then fire his musket and in this way the news would be carried eventually to Washington's camp.

Such was the crude manner of conveying information used by these members of the American army's first "intelligence service"—a far cry from the elaborate telephone and radio systems used on the battlefields of France.

Hint to Remember.

Dr. Nicholas Murray Butler, contemplating the marvelous success of his recent foreign tour, said with a smile:

"We can all get on with foreigners, you know, if we will remember not to criticize. A foreigner's country is to him what your family is to you. You will criticize it yourself, but criticism from outside you can't and won't abide."

"An American said to an Englishman one day:

"London's a dull hole."

"As an Englishman," said the other, "I object to that remark. I agree with it, but I object to it."

Danger in Uncooked Vegetables.

At an inquest held at Westminster, England, on a thirty-year-old cook of Newcastle, who accompanied her mistress to London, medical evidence was given that death resulted from a cyst caused by a worm, which had entered the system as the result of the consumption of improperly washed uncooked vegetables, such as salads, tomatoes, and watercress.

Mrs. Ferd Maddox has been visiting in Memphis with relatives for the past two weeks and is now visiting Mrs. Charles Driver in Blytheville, Ark.

## Colombia Air Mail.

Colombian government is subsidizing the weekly aerial mail service of the Colombia-Almendra de Transportes Aereos between Barranquilla, Girardot and Nivara to the extent of \$100 per trip, plus a payment of 30 cents per 15 grams for mail carried. The company uses 500 hydroplanes with 500 horsepower motors, carrying three passengers each.

Mail transportation by river steamboat takes from one to two weeks going from Barranquilla to Bogota, depending on the condition of the river whereas by air service it arrives in 2 to 30 hours. American business men are able to purchase aerial stamps to use on this line to interior points in Colombia right in New York city.

## We Girls Forget.

My parents were entertaining a distinguished man, a college president. At the same time I had as my guests a couple of girl friends.

We spent the evening at a lovely concert and when we came home the rest of the household had retired. I was so full of the memories of the heavenly music I suppose that is why I completely forgot that the dignified

resident was to occupy the guest room. So I blissfully sailed in and

pushed the electric button by the door, Secretary to ushering my friends in

to their room.

No light flashed up, so I went to the handkerchief to turn it on there, when

from the depths of the bed came a big voice, "I think you are in the wrong room."—Chicago Tribune.

## PRUNE RASPBERRY IN SPRING

Best Time Is Just Before Sap Commences to Run, but After Danger of Frosts.

Raspberries should be pruned in the spring just before the sap commences to run, but after all danger of severe frosts is past. Generally there is a period of a week or ten days when conditions are ideal for the pruning work. And this applies to all cane fruits, and to grapes as well. Spring pruning gives the best results, says a writer in Successful Farming.

The pruning will have to be done along some preconceived plan and not a haphazard fashion. It is essential to be made to produce at their maximum possibilities. Success with pruning is dependent upon a number of factors.

The first should be all means to be done in a way which will permit of easy access between them not only to make cultivation possible but also to make pruning easy. When a large cane is made and cultivated by a horse cultivator is desirable, the row should be at least seven feet apart.

The canes may be either trained to a trellis or not. The method of pruning to be done will depend upon whether they have support or are to be forced to support themselves. Canes having a support can generally be pruned a little less severely than where stocky, sturdy growth is necessary in order to give them strength sufficient to support themselves.

It makes little difference in the quality of fruit grown, and is largely a matter of personal preference as to which method shall be adopted. It is doubtless true, however, that the closer the pruning, the better the quality of any fruit produced on canes. The quantity may be cut down by severe pruning, but the quality is always improved.

In going through the berry patch in the spring, select not more than three

## MYSTERY ABOUNDED IN MOVIE MURDER

Edward F. Sande

Ethel D. Tanner

Perhaps no murder mystery of recent years has so stirred the interest of the nation as the shooting of Wm. D. Taylor, Lasky movie director, at his home in Hollywood, Calif. Infatuation of Mabel Normand and Mary Miles Minter, two celebrated screen stars, for Taylor; the fact that he had formerly been married, and was the father of a

19-year-old daughter living in New York, were only incidents in a gripping tale of love, adventure, romance—and murder. Picture is of the home where Taylor was murdered. Inserts are of Taylor, his daughter, and Edward F. Sande, former valet to Taylor, for whom police of the nation searched in trying to clear up the mystery.

## SCIENTISTS CAN BUT GUESS

No Absolute Proof Can Be Brought as to How Long Man Has Existed on the Earth.

It is proved that man—true man—existed on this earth many, many thousands of years ago. How many no one can certainly say, but certainly longer than the period accepted as a strict dogma by Bible Christians within living memory (and still affirmed by some of them). It is not proved, but it is highly probable that there is genetic connection between man as we know him and the earlier inferior types of which evidence remains. If a critic were to maintain that man as we know him rose suddenly from some other type not yet found (for the evidence is very fragmentary and slight), he would not be contradicting ascertained fact; on the contrary, he has on his side the anomaly of fine skulls found in apparently very early strata; all that department is quite unliked. That man as we know him was a vile thing for countless generations and gradually rose to practice the human virtues and intelligence is not proved at all. There is not an atom of proof. Even the vague analogy from existing savages falls. Some savages are of one character, some of another; all as old in descent as ourselves. The excessive evil affirmed of true man when first he could be so called is sheer unsupported affirmation proceeding not from evidence—for we have none—but from a mood, a desire that things should be so.—Hiltaire Belloc, in the Yale Review.

## VIVIDLY BROUGHT BACK PAST

Liberty Loan Posters Seemed Very Old, Though Only Three Years Really Have Elapsed.

A janitor's uncompleted work greeted elevated line patrons at one of the downtown stations the other evening. He had been removing advertising posters from the side of an adjacent building. The first layer remained stuck to the wall. They consisted of a series of posters for the third Liberty loan. One of these bore the pictures of a sailor, a soldier in a campaign hat and a shipyard worker. The sailor was "keeping the road open," the soldier was "building the road to Berlin" and the shipyard worker was making the ships. "Buy bonds to keep these men going; they're fighting for you," urged the artist.

The faded posters seemed to fascinate the crowd. To those who stayed at home it reminded them of the times they were "giving it all" and to the veterans it recalled those days of the St. Mihiel drive and the preliminary assaults in the Argonne forest, or, perhaps, to some those hectic hours when they were "leaping from cafe to cafe" in Paris.

Like a ghost of the past, the posters stalked with their message. They were ages old with their three years of time.—Chicago Journal.

## \$100 Reward, \$100

Cataract is a local disease greatly induced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. \$100.00 for any case of Cataract that HALL'S CATARRH MEDICINE fails to cure. Drugists &c. Testimonials free. F. J. Cheney & Co., Toledo, Ohio.

The Woman's Club has obtained a splendid picture for Wednesday, February 22. Be sure to see "The Little Rebel."

## SATURDAY, FEBRUARY 18 LAST DAY OF SALE

Hickman, Kentucky

## Engine Has Three Carburetors.

Three carburetors on one engine presented an odd appearance at a French auto show recently and was the subject of much comment. The engine, which is illustrated in the Popular Mechanics Magazine, is a 40 horse power and has six cylinders. When three carburetors are fitted, two of them supply independent groups of cylinders, for high power and speed, while the third supplies all the cylinders at low speed, or "loading range," as it is called. Thus, if a motor car has an engine with six cylinders, these are divided into two groups of three, and one carburetor feeds each group when high speed is desired, or when heavy power is needed, as in hill climbing. The third carburetor feeds all of the cylinders at low speed.

## From Prisoner to Prison Reformer.

Edward H. Morrell, director of the department of prisons of the bureau of commercial economics, was at one time the youngest member of a band of California outlaws and after his capture he was for years regarded as one of the worst prisoners ever brought to the San Quentin prison, but under the guidance of a new warden he became head trusty and finally was pardoned. Since his release he has devoted himself to the work of bringing about prison reforms and has been very successful. He says the present method of punishment has the effect of intensifying criminality. He advocates the abolishment of prisons and the establishment of prison farms and vocational education for prisoners.—Chicago Journal.

## Accepted With Pleasure.

Being raised in a small town where there were no tag days, naturally I had never had it explained to me. While staying with an aunt in a somewhat larger town the annual tag day was observed. I was shopping that day and two young women asked me if I wanted a tag.

I readily replied, "Yes," and walked away with the tag without contributing any money.

I noticed the girls laughing, but could not imagine why, so when I arrived home I asked my aunt why they were giving those tags away. Imagine my consternation when she explained what I had done.—Exchange.

## Bird Lost Its Bearings.

A rancher living at Squilax, B. C., was awakened one morning at day-break by being hit on the face. On getting up and investigating he found a grouse had flown in through the open window. It also flew into an adjoining room where it was captured.

Groceries—Bettersworth.

## ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headaches, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin box of twelve Bayer Tablets of Aspirin costs few cents. Druggists also sell large packages. Aspirin is the trade mark of Bayer Manufacture of Monacell, certificate of Nateltracht.

## SPENDS A DAY IN MOUNTAINS

W. C. Speer Sends Another Enjoyable  
Word Picture of California

[Editor's Note—This is one of a series of letters by W. C. Speer, in which he will give our readers a description of California from hand.]

BY W. C. SPEER

At no time since we have been in Southern California have we been out of sight of the mountains: while many of the towns seem to be entirely surrounded by them. You probably know that we do not have twilight here, as we do at home, as a result of the proximity of the ocean. But the mountains far and near present an exquisite color combination at the twilight hour, changing from white or brown to lavender, then merging into dark blue or purple, which gradually fades into obscurity—and night.

In the early fall months we were very pleasantly surprised to receive an invitation from an old friend, formerly a prominent young attorney of Hickman, to visit him at his headquarters, near Seven Oaks, high up in the San Bernardino range of mountains, some forty miles from Riverside. Anxious to see him and to make the trip, we took an early morning start, as the cold weather had not yet set in. Our friend was in the U. S. forestry service and stationed just a short distance from Big Bear Lake, a body of water as large as Redfoot and located literally in the clouds.

We have been over several of the great ranges in our drive to the Golden Gate state, but had seen nothing as beautiful as we found on this trip after entering Mill Creek canon and starting up the ascent.

Oh, yes; the "control road" was new to us—and probably to the reader. In brief, a control road is one with a guard stationed on each end of certain sections (17 miles in this instance), because the road is dangerous on account of its narrowness and many sharp turns and zigzags. Traffic is permitted to go one way for an hour and a half, then the opposite direction for the same length of time, being operated strictly on schedule. If you have a breakdown or for any reason fail to make it then in the allotted time, you must sidetrack and stay there until traffic again starts your direction. Without this plan in operation on such roads many serious accidents would result.

Entering Mill Creek canon one begins climbing, looping, halphing, up, up, up, over narrow roads, some of which are mere shelves or ledges above yawning chasms on the one side and towering cliffs of solid rock on the other. Occasionally we cross a rustic bridge spanning a mountain stream—here and there a waterfall, pouring over the moss covered walls. As we climb we note, though the line is indefinite, a change in vegetation: leaving the semi-tropical behind and entering great forests of pine and oak, which seem to grow out of a carpet of wild ferns waist high. The temperature, too, gradually drops until we find a difference of 30 to 40 degrees cooler near the summit at an elevation of 7500 feet.

The clouds, like mountains of snow, are no longer above us—they are on a level or below. Frequently they envelop us like a dense fog—and are quickly gone. There is a rarity or clearness of the atmosphere that is never found in the lower regions. Most like, I would say, the air feels at home after a fine spring shower, plus a sort of subtle aromatic from the pine cones. An elixir, if you please, that brings color to the face and gives one "pep" and appetite. In these high altitudes some people experience nosebleeds, and those with weak hearts, too, feel the change, but these troubles soon subside. Going up most of us feel a peculiar sensation about the ears. Even the autos get groggy at certain altitudes. The difference in the amount of oxygen in the air puts the carburetor on the blink. To give her more or less gas cuts no ice; the old boat labors like it might be towing about six others. My experience in two different cars is that the trouble invariably occurs at an elevation of between 4500 and 5500 feet, and above 5500—presto! the car picks right up.

We finally reached the top. It is level in a way, and not a pinnacle, as the uninformed might suppose, but many square miles in area. Here are marvelous lakes, forests of majestic pines and wide spreading oaks, interspersed with camps and resort hotels—one of the summer playgrounds of Californians. Our friend's camp is located by a wild, dashing, clear mountain stream, filled with speckled trout. (Captain Shuck, Dr. Curlin and Lowery Stone please take note). This stream is the combined strength of numerous snow fed springs. The air is bracing, the sky a marvelous blue, distant mountain peaks are mirrored in the placid waters of the lake, and with the exception of the songs of birds and the murmur of the waters, profound quietude reigns. Here one finds opportunity for real mental and physical rest and relaxation.

This range includes a part of the famous "Rim of the World" trip, a distance of 101 miles. Sightseeing in California would be incomplete without making it, as the lakes and mountains combine to produce one of the most rare and striking panoramas in the outdoor world. Nature has been lavish in her bestowal of varied loveliness here. Everywhere the eye wanders we are charmed by the brilliance and variety of scenes hidden away "far from the maddening crowd," in this primeval forest and mountain fastness. Here one gets real visions of Nature in her ruggedest modes of grandeur.

But, like the ocean, even the mountains are beginning to show signs of encroachment for financial exploitation. Around the Big Bear lake, hotels and the sign of the dollar mark are looming up. Among these are Big Bear Tavern, Pine Knot Lodge, Indian Lodge, Swastika and others. Furnished cabins, too, are to be had at so much per. The city of Los Angeles has also established a municipal playground here.

## GOOD HEALTH OF CHILDREN FROM RICH BLOOD

Health, Strength and Vigor Built Up  
by Gude's Pepto-Mangan

You see one child strong and robust; another child pale and thin. One eats practically the same foods and takes the same exercise as the other. What is the difference? Nearly always it's a difference in the quality of the blood. The strong child has rich, red blood and plenty of it. You love to see him eat so heartily. If your child is thin and weak give him Gude's Pepto-Mangan to build up the blood and see the difference between a sickly, unhappy childhood and home, healthy childhood. Get Gude's Pepto-Mangan at your druggist's in liquid or tablet form. Be sure it's the genuine.—[Adv.]

## REMINISCENCES

### FIFTY YEARS AGO

"Congress has enacted a law requiring that the voting for its members shall hereafter be by ballot, and not by the honest, straightforward Kentucky plan."

"Elder Esther H. Osborn will commence a series of sermons at the Baptist church Tuesday night."

"The bill to re-establish the Court of Common Pleas in Hickman county has passed the lower house of the Legislature."

"There was talk of tunneling the English Channel from Dover to Calais. [This is one of the few projects contemplated half a century ago that has not as yet come to pass.]

"The editor has been sick, unable for duty, the latter part of this week, and hence the scarcity of local news."

"Kentucky has 924 postoffices. Only ten other states have a greater number."

### TWENTY-FIVE YEARS AGO

"Boston is to have a horseless fire engine."

"The present Congress, during the two sessions, appropriated more than one billion dollars."

"Claude Walker has been appointed a deputy sheriff."

"The steamer Ora Lee will shortly enter the Cairo and Caruthersville trade."

"The weather for the past week has been delightfully pleasant."

"Elder James H. Brooks continues his work with the Christian church this year."

"A candidate for judge in Callaway county offered to buy two thousand dollars if he were elected to the office."

"The following five pupils in the third year high school had the best grades: Ivey Chew, Leone Fugma, Ivy DeBow, Henry Helm and Alice Cowgill."

"W. P. Taylor announced as a candidate for judge of the county court. L. W. Dickinson announced for the same office."

"Mrs. M. A. McDaniel was advertising Buck Laughman chickens for sale."

"Quaff ye the waters of Ramona's well. Good luck they bring and secrets tell; Blessed were they by dandelion Friar, So drink and wish for thy desire."

### GOOD IDEAS FOR THE COOK

As food materials differ in price with the locality and with the season it is often impossible to follow a recipe, as we find some ingredient either too expensive or difficult to obtain. If the housewife understands the composition of foods she can substitute some other food material with good results.

For example, when butter is called for, chicken fat, sour cream, clarified bacon fat or some one of the butter substitutes may be used. Cream contains more water than butter, chicken fat less; so in using such fats this must be taken into account.

Chopped nuts are also added to dishes to add to the food value. All these things are invaluable knowledge for the housewife to have. It is easy to find from bulletins published by the United States Department of Agriculture almost anything in regard to foods.

The following data will be helpful culture almost anything in regard to foods:

One cupful of whole milk, two table-spoonfuls, all measurements level.

One cupful of cream, three table-spoonfuls; double cream, six table-spoonfuls.

Butter, one cupful, fourteen table-spoonfuls; the two unaccounted for, salt and moisture.

One cupful of English walnut meats, two-thirds of a cupful of fat.

Peanuts, one cupful, about one-third fat.

Chocolate, one square (one ounce), one tablespoonful of fat (scant).

Grated cheese (four ounces), one cupful; two and one-half table-spoonfuls of fat.

One egg yolk, a little more than a teaspoonful; a whole egg the same.

Vegetable oils, from which all water has been driven off, contain one cupful to one cupful.

In a cake in which two-thirds of a cupful of butter is required and one cupful of milk, using a cupful of cream, reducing the butter two table-spoonfuls and two table-spoonfuls of water added, will make the proportions right.

*Nellie Maxwell*

If your head is dizzy on stooping or rising suddenly and everything turns black before the eyes, you have a torpid liver. Take Herbine. It is a powerful liver regulator. Price 60c. Sold by all druggists.

## MADE REALISTIC ON SCREEN

Effect of Tree Being Struck by Lightning Produced With Remarkable Effectiveness.

In one of the leading film productions there is a very realistic storm scene, and as a team of horses is being driven by, a tree is struck by lightning. This wonderful lightning effect was entirely artificial. A charge of flashlight powder was laid in the tree, over which the bark was replaced. An electric wire ran from the charge to a battery a little distance away.

Two big searchlights were then connected up with a portable electric generator a few feet behind the camera and focused on the tree at the spot where the flashlight charge was placed. The night was pitch dark when the scene was taken. The character in the scene was placed, and the signal given. The camera man started "shooting." At a word from the director, the two big lights were suddenly flashed on, and off again, illuminating the entire scene with a sudden blinding flash of light.

At the same time the flashlight charge in the tree was exploded, giving the effect of a bolt of lightning coming in contact with the tree. Then all was darkness again. A few carefully placed scratches on the emulsion of the film ahead of the scene served as perfect lightning streaks just before the big flash.

### Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, burning, bleeding or protruding Piles. Instantly relieves itching Piles, and you can get restful sleep after the first application. Price 60c.

The first woman with sovereign authority was Semiramis, queen of Assyria, 2017 B. C.

## CLUB HAS BUT FOUR MEMBERS

Most Exclusive Organization in the World is in Order of Knights of Columbus.

The most exclusive club in the world consists of only four members. They are Marshal Foch, Cardinal Mercier, King Albert of Belgium and the duke of Venegum.

The first three need no explanation, and the fourth member of the club shouldn't, for the duke de Venegum of Spain is the last living lineal male descendant of Christopher Columbus.

The four celebrities are the only European members of the Knights of Columbus, each having been made honorary members of the organization on the occasion of their visits to America. The duke de Venegum was made a member of the K. of C. more than twenty years ago, when he visited America for the Columbian exposition, held in honor of his ancestor's discovery of America. He was the first honorary member of the K. of C.

Cardinal Mercier and King Albert were made knights in 1920 and Marshal Foch, the latest honorary member of the K. of C., was made a knight in Chicago when he visited that city on his American visit.

Incidentally Marshal Foch is the millionth man to have the honors of Columbian knighthood conferred on him, as the present membership is 800,000 and losses through death and other causes in the history of the K. of C. amount to approximately 200,000. Several classes to be initiated were postponed to give Marshal Foch the millionth position.

To Cure a Cold in One Day  
Take LAXATIVE BROMO QUININE (Tablets)  
Stops the Cough and Headache and works off the Cold. E. W. GROVE'S signature on each box. y

## HE WANTED A CHANGE, AND HE GOT IT

We were getting a dollar a day for our corn  
We could sell every bushel from the field to the barn—  
We wanted a change and we got it.

Now we're getting a quarter for corn. It's so cheap  
That we burn it for fuel and use the rest to keep  
We can't sell the bushel so we burn it deep—  
But we wanted a change and we got it.

The poor working man paid for it, but he's a day.  
Now he's glad to work and he's got it.  
But we wanted a change and we got it.

There was work and a plenty of money in the sun,  
And warm food and shelter and work was done  
Now there's no work and no money in the sun—  
But we wanted a change and we got it.

Mr. Wilson spent a day in the "over there,"  
For peace he was fighting but he did not care—  
We wanted a change and we got it.

Now all we need is a little more of the sun,  
Day after day at sunset and the moon is done;  
Not what we need from the hand of a Nation—  
But we wanted a change and we got it.

We were poor and we were sad and we were gay,  
Now millions of children are hungry each day—  
We wanted a change and we got it.

Meanwhile, our hour of glory was certain to come—  
Reaction from war that had been three years done,  
If we wanted a change we would get one—  
But we wanted a change and we got it.

ELLISON GROCERY &  
HARDWARE CO.GROWING SEASON  
FOR MANY CROPSHotbeds and Cold Frames En-  
able Gardener to Protect  
Plants From Weather.

## OPERATIONS STARTED EARLIER

Beds May Be Utilized Throughout  
Spring and Summer—They Are  
Inexpensive and Easily Oper-  
ated—Ventilation Essential.(Prepared by the United States Department  
of Agriculture)

Hotbeds and cold frames enable the home gardener to lengthen the growing season for his crops. With them he can start his operations a few weeks in advance of the last chilly days of spring, before which it is not possible to plant out of doors. Throughout the spring and summer these beds may be utilized, and after the first fall frost they furnish protection for late vegetables. They are inexpensive and easily operated, say garden specialists of the United States Department of Agriculture.

**Making a Hotbed Sash.**  
Standard hotbed sash are 3 by 4 feet, and it is customary to make a home garden hotbed with one, two, or more sash, according to the size of bed desired. Select a well-protected and thoroughly-drained spot, dig a pit 12 to 18 inches deep and a little larger than the bed is to be made. Throw the good top soil to one side. For a two-sash bed about one good wagonload of fresh horse-stable manure will be required. The manure should be thrown in a flat pile 4 to 5 feet away from where the bed is to be constructed and the pile turned about twice at intervals of three or four days. As it is turned the outer portion of the pile is thrown to the middle and the inner portion to the outside, in order to get uniform heating throughout. Then pit the manure into the pit, each forkful being shaken to break it apart and spread it evenly. It should be well tramped. Put in a layer about 3 inches deep, then another layer, treading each until the pit has been filled level with the ground. It should be just moist enough to pack reasonably solid, but springy under the feet.

The frame of the bed, made of wood, is then set on top of the manure and the earth from the bottom of the pit banked up outside of the frame to keep out the cold. The north side of the frame should be 8 inches higher than

Preparing a Hotbed to Get Ahead of Jack Frost.

the south side. The good soil from the surface of the pit is spread on the packed manure. It is a good plan to mix a little well-rotted manure with this soil.

Put the sash on and leave the bed to heat for several days. First the manure will become very hot, then after two or three days it will gradually cool. The temperature will then remain more moderate. No seeds should be planted until the temperature of the soil has fallen below 85 degrees. Use a thermometer, the bulb of which is buried about 3 inches deep in the soil. Feeling the bed with the hand is not a reliable method of taking the temperature. Have a piece of old carpet or a burlap mat to throw over the sash for protection on extremely cold nights.

**Care of Hotbeds.**  
Hotbeds must be watched during bright weather to prevent them becoming too warm, as the sun shining directly on the glass soon brings the temperature above that suitable for the growing of plants.

Ventilation is provided by propping the sash up at one side or the other according to the direction of the wind. Have the wind blow over the opening and not directly into the bed.

Cold frames are hotbeds minus artificial heat—simply sash-covered frames with no pit under them but banked up on the outside to keep out the cold. They are useful for growing plants that have been started in hotbeds, and for hardening plants to get them in condition to plant in the garden. Sometimes a bed about 12½ feet in length covered by four regular hotbed sash is divided into two parts, one part being made into a hotbed and the other a cold frame. This is an excellent arrangement and one that is not expensive.

## OFFERS SELF IN MARRIAGE FOR \$1,000

Pretty Theresa Katona, of Brooklyn, N. Y., offers herself in marriage for \$1,000, the money to aid her father, mother and six small brothers and sisters, the latter all under 15 years of age. The father is ill and out of work. Theresa's only qualifications for a husband (other than the \$1,000) are that he be healthy and a Christian. She agrees to wed on her 19th birthday, November 28, this year.
